10009 Six Forks Road

Raleigh, NC 27615

## **Discharge Instructions**

**Patient Name:**

**Description:**

**Owner Name:**

**Pet Weight:**

\_\_\_\_\_ underwent an ovariohysterectomy, the removal of both ovaries and uterus. She will no longer experience heat cycles, nor will she become pregnant. She was given medication for pain and discomfort during her procedure which lasts 24 hours.

Please monitor \_\_\_\_\_'s incision for any redness or swelling and prevent her from licking or chewing at her incision. Should she begin to lick or chew at the incision, please stop by and pick up an E-collar, this will prevent any risk of infection or removal of the sutures. If you notice any redness or swelling, please schedule a recheck appointment.

Limit \_\_\_\_\_'s activity for the next two weeks, do not allow her to jump on or off elevated surfaces. Once her sutures are removed, she may return to regular activity.

Return to \_\_\_\_\_'s regular diet. Report any vomiting or diarrhea.

Give medications as directed

Schedule an appointment in 10-14 days for suture removal with a Technician

**If you have any questions or concerns please call 919-848-1926.**

\_\_\_\_\_'s does **not** have sutures. Even without sutures, please monitor the incision for any redness and swelling. Limit activity for the next two weeks, do not allow her to jump on or off elevated surfaces.

***Thank you for giving Bayleaf Veterinary Hospital the opportunity to care for your pet!!
